

## Youth Ambassadors

The Chinese organization will provide food and accommodation to the Youth Ambassadors during their stay in China.

Youth Ambassadors use their skills and expertise to actively contribute to Chinese culture exchange projects. The aim of this project is to build a bridge for China and Britain. They gain an increased understanding of the development needs of our overseas charity work and broaden their experience by living and working in a cross-cultural environment.

**We recognize the power and potential that our young volunteers could offer**

- Learn the Chinese cultures, traditions & languages.
- Develop interest in Geography, Politics & History.
- Create and encourage economic development in the future between Britain and China.

## Volunteers Urgently Needed
